CB HILDEBRAND COOL KIDS

MARCH 7– CATAWBA SCIENCE CENTER

“Toying with Motion” -Experiment with things that fly, roll and balance, exploring concepts of force, gravity and inertia. This interactive program presented by the Catawba County Science Center begins at 3:30. It is free and open to the public, but **you must register in order to attend. The program is limited to 20 participants.**

MARCH 14– ST. PATRICK’S DAY

Come celebrate St. Patrick’s Day at the library, and don’t forget to wear your green! I don’t know if we’ll catch a leprechaun but there may be some gold hidden. For sure there will be some green snacks and some Irish Bingo.

MARCH 21– AH PEANUTS!

Peanuts, Peanuts, Peanuts– the life and times of peanuts! Yep! Today is all about Peanuts– the munchy, crunchy kind — not Charlie Brown..... You’ll learn how they grow, why they’re actually good for you, what it is that makes some people allergic to them, and what all is made from them (you might be surprised by this one). Is anyone in our group allergic to peanuts? Be sure and let Ms. Judy know before this storytime.

MARCH 28– ANNUAL KITE FLYING DAY

It’s time again– “let’s go fly a kite– up to the highest height”... Everybody hope for a perfect windy day as once again we gather on the playground for our annual kite flying festival. Whose kite will make it the farthest this year? Who will have the most creative, the silliest, the most colorful? We need to decide– will we design our own or will we use one from a store and add our own “extra touches” to it? Be thinking how you want to celebrate kite flying day with us this year.

MARCH 12– FAMILY BINGO NIGHT

Everyone is invited to come enjoy a night of Bingo at the library. All ages are welcome. The fun begins at 6:00pm.
