VALDESE LIBRARY EXPLORERS

**Do you love to look at the stars at night? Have you ever wondered what other planets look like? Well this month is all about the solar system and SPACE!**

## MARCH 6- LOST IN SPACE

We begin our trip into space with the movie The Magic School Bus Gets Lost in space. We'll watch as Ms. Frizzel and her class get into trouble as they explore the great unknown. We can nibble on Moon Pies and space junk and wash it all down with SunDrop.

\*\*\*\*\*

## MARCH 13- PLANETS

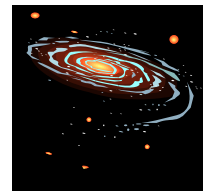

Today we will be true astronauts as we begin constructing a solar system. Come learn some truly amazing things about our planet Earth as well as ones that no human can ever explore. Do you know why? Come find out!

\*\*\*\*\*

## MARCH 20- GALAXIES

So far to travel... so little time...millions of miles! We will travel all the way to two of the most amazing planets in our solar system, Saturn and Mars, and study about their unique terrain. We'll finish making our solar system from last week and then create a glittery galaxy that's almost as beautiful as the real thing.

## MARCH 27- FAMILY GOLD MOVIE NIGHT

Come join us for Family Gold Movie Night as we present the wonderful classic "ET". The movie will begin at 6:00 PM and is free and open to the public. Refreshments will be provided for those attending.
